PROFESSIONAL SUMMARY

Email: omkumar27516@gmail.com
Mobile: +91-6388447553

Results-driven Software Developer with hands-on experience in Full Stack Development, Android Development, and Backend API Development using React.js, Node.js, Express.js, Firebase, Kotlin, and MongoDB. Strong foundation in Data Structures, OOP, REST APIs, Authentication, and Cloud Fundamentals (AWS). Passionate about building scalable, user-focused applications and continuously learning modern technologies to solve real-world problems efficiently.

SKILLS

- Programming:** C++, JavaScript, Python, C
- Frontend:** HTML ,CSS, Redux, React.js
- Backend:** Node.js, Express.js, REST APIs
- Database:** MongoDB, MySQL, Firebase Realtime Database
- Cloud & Tools:** AWS, Git, GitHub, Firebase, Cloudinary, npm
- Concepts:** Data Structures & Algorithms, OOP, API Design, Problem Solving, Debugging

PROJECTS

GreenTrack App Android Development	Dec 2025
•Developed an eco-friendly waste collection Android application to promote sustainable practices. •Built responsive UI using Kotlin in Android Studio to improve usability and user interaction. •Implemented activity tracking features for monitoring waste collection and management efficiency. •Structured modular codebase for better scalability, maintainability, and debugging. •Performed testing and bug fixing to ensure smooth and stable application performance.	
Twitter Clone Full-Stack	July 2025
•Built a full-stack social media application with user authentication and real-time interactions. •Revamped UI using React.js, reducing page load time by 40% and improving user engagement by 25%. •Developed secure RESTful APIs using Express.js and MongoDB with proper schema validation using Mongoose. •Implemented JWT-based authentication and bcrypt password hashing for secure login and user management. •Added rate limiting and backend security improvements for better API protection and performance. •Applied responsive design for seamless experience across desktop and mobile devices.	
QR Code Generator Full-Stack	Jan 2025
•Developed backend services to generate scannable QR codes from user-provided URLs. •Implemented asynchronous request handling to improve response time and overall system performance. •Designed efficient API workflows and tested application reliability for consistent output. •Optimized backend performance for faster QR generation and improved scalability.	

TRAINING

Data Structures & Algorithms – GeeksforGeeks	Jul 2024
•Strengthened algorithm optimization and problem-solving skills. • Built Bank Management System applying debugging and coding best practices.	

CERTIFICATES

•Python Basics Coursera	April 2025
•The Complete Full Stack Web Development Udemy	Jan 2025
• Introduction to Mobile Android Application Coursera	Nov 2024
• AWS Cloud Practitioner Essentials Coursera	Feb 2024

EDUCATION

Lovely Professional University	Punjab, India
•Bachelor of Technology - Information Technology; CGPA: 6.37	August 2022 - Present
S.R. Public School	Orai,Uttar Pradesh
•Intermediate; Percentage: 71%	April 2021 - March 2022
•High School; Percentage: 60%	April 2019 - March 2020
